

DECLARATION OF IMMEDIATE AVAILABILITY TO WORK (DIA)

Presenting the **DIA** informs the State that an individual is unemployed: thus those who are unemployed state that they are willing to work, attend training courses and have selection interviews with companies in order to start working again; it is the declaration that determines the beginning of an individual's state of unemployment.

The online **DIA** can be filled out on the portal created by the Ministry of Labour, **MyANPAL**, or that of the Marche Region, **Janet**, either independently or through an intermediary (an employment office or a welfare agency only in the case of entitlement to NASPI, insurance against involuntary unemployment). Employees who have received notice of termination may present the DIA during the termination warning period.
