

# JADECARE

Joint action on implementation of digitally enabled integrated person-centred care

Capacity building in Europe for digitally enabled integrated care

## ABOUT

**JADECARE** stands for the European Joint Action on implementation of **Digitally Enabled integrated person-centred CARE** dedicated to mastering core challenges of the **transformation of health and care in the EU**. It will contribute to enable **innovative, efficient and sustainable health systems**, providing expertise and sharing, transferring and adopting best practice models to participating European nations and regions in undertaking health system reforms.

## KEY AIMS

To **reinforce the capacity of health authorities** for successfully addressing all the important aspects of **health system transformation** in particular the transition to digitally enabled, integrated, person-centred care.

To **support the best practice transfer** from the systems of four selected "original Good Practices" (oGPs) to 21 "Next Adopters" in Europe.

## JADECARE INVOLVES 45 ORGANISATIONS FROM 16 COUNTRIES ALL AROUND EUROPE

## WHAT'S BEING TRANSFERRED

The selected oGPs cover integration, chronic conditions incl. multimorbidity, frail people and patients with complex needs, self-care, prevention and population health, disease management and case management:

### BASQUE COUNTRY

Basque Health Strategy in Ageing and Chronicity: Integrated Care

### CATALONIA

Catalan Open Innovation Hub on ICT-supported integrated care services for chronic patients

### GERMANY

The OptiMedis Model-Population-based integrated care

### SOUTH DENMARK

Digital Roadmap towards an integrated health care sector

♥ Original Good Practice

♥ Participating countries
